# THE WRECK ON

It Was Much More Disastrous Than Was at First Reported.

### TEN PERSONS BADLY INJURED.

Some of Them Are Seriously Hurt, and It Is Believed They Will Not Get Well.

THE COACHES FALL OVER FIFTEEN FEET.

The Chair Car and Sleeper Are Half Buried In the Slush and the Scene In the Former Was One of Confusion.

Dallas, Sept. 27.—The wreck on the Honston and Texas Central railroad that occurred yesterday at Chambers' creek, just north of Corsicana, was worse than was first reported. Ten persons were injured, two of whom is believed to be fatally hurt, and several others slightly

The train was running at no unusual speed when the accident occurred. Just trucks left the track and ran on the stringers for about 30 feet, going to the right antil the right wheels were off the trestle. It then took a short turn to the left and plunged over the trestle into the water, 15 feet below, dragging the chair car, which was well filled with passenor ladies' car half over.

The scene inside the chair car was one that buffles description. Men and women were hurled under seats, but, strange as it may appear, but one female was injured, and that very slightly.

Both the sleeper and the chair car were partially buried in the dirty water of the slough

The persons injured are as follows: Judge G. W. Davis, Oak Cliff, will

GOMEZ' PLEA FOR FOOD BEING ANSWERED.

Provisions Will He Given the Cubens, but Not Until They Are Disbanded as an Army.

New York, Sept. 27 .-- A dispatch to The Herald from Washington says:

When asked what action would be taken by this government upon the appeal sent out for food by General Gomez, Asting Secretary Meiklejohn said that the landing of stores of the Comal was a reply to that appeal. It is expected that the Comal will begin at once unloading her stores at Matauzas and this cargo will be followed by others as the necessity develops. No food will be distributed to men under arms so that the feros under Gomez must disbaud before receiving supplies.

This government was at first firm in its refusal to allow food to be distributed to the Culans otherwise than under the direction of American officers as provided for by the act of congress, but the agreement now is that it shall be distributed by a third commission, to be as pointed by the American and Spanish military commissions.

In explanation of this somewhat anamaions solution of the question Mr. Metkiejohn said there would be an American officer on the commission. It was said that General Wade would have in reality full direction of the distribution. There is no information yet as to the probable appointment to the com-
